Cloud IoT Innovation Award 2016, all are enthusiastically welcomed to apply and participate

In coordination with the Government's promotion of cloud computing and Internet of Things (IoT) industrial policy, and improve the power and speed of enterprise innovation, the Cloud Computing Association in Taiwan (CCAT) will be expanding the organization of the 2016 Cloud Internet of Things (IoT) Innovation Award. This event is divided into two groups: government services group and innovation group, in addition to strengthening the close connection of Association members and Government promotion of policies/applications, highlighting and promoting the results of Government in the construction/application of cloud computing and IoT, but also collect more diverse, more extensive outstanding, innovative domestic products and services.

This event welcomes the participation of relevant application from cloud, IoT related industries (Business Innovation Group) and from the cloud computing/IoT/Big Data/Smart manufacturing/Smart city (i.e. smart medicine, smart building, smart traffic, smart energy saving, smart campus, smart security, etc.) built and promoted in recent years by the relevant ministries, agencies (institutions), municipality, county and city Governments (Government Services group). Also, this event will at the same time reward Government agencies and companies participating in government projects about cloud computing/IoT/ICT/systems integration, and single enterprises or agencies, municipality, county and city governments can all apply to multiple applications. Organizers will build a professional jury, with preliminary reviews and finals, and selected 3-5 outstanding application awards from the Government Application group, and

5-7 from the Business Innovation group.

This event's registration is open from now until Oct. 5th, just fill in the attached file information to register for the competition. Organizers expect to complete the primary selections on Oct. 15th, on location finals will be held on Oct. 22nd (Government group) and Oct. 29th (Business group), with the award ceremony on Nov. 4th.

You are all cordially invited to join the festivities, please register!
